

TWO POST LIFT FOR BREWERY

SPECIALTY SOLUTION #33

PROCESS INDUSTRIES

- 4,000 lbs capacity, mechanical actuation, 46" x 48", 100" vertical travel
- Mechanical lift provides precise and repeatable positioning
- Zero creep, load holding at any height
- Synchronized dual screw drive ensures 100% level lifting

Handling Specialty engineered and manufactured six (6) two-post lifts for a brewing company in Canada to assist in a stacking and destacking operation.

The lifts are mechanically-actuated and required high rise and low platform features. For the purposes of cleanliness, each system is non-hydraulic which guarantees precise and repeatable positioning as well as zero creep at any height.
